

# Now you can start smart

The EMX4 Smart Card redefines the role of a soft starter. With the appropriate Smart Card installed the EMX4 is able to operate as an entire system controller.

Smart Cards deliver industry or application specific functionality and are easily inserted into the EMX4, simplifying system design, installation and set-up.

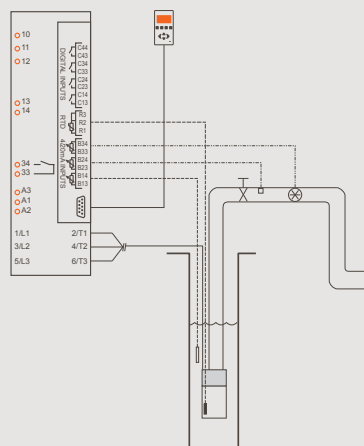

By transforming your EMX4 with an industry specific Smart Card, your system can be purpose-built around one central point of intelligent control and communications.

Utilising this technology will improve overall efficiency of your system, and put you firmly in control.

## START PUMPING SMART

Installing the Pumping Smart Card allows applicable sensors to be directly connected to the EMX4. This removes the need for extra components normally required to provide this level of specific information and control for your system.

Irrigation

Water Utility Application

The EMX4 Smart Card release program is ongoing. Go to [www.aucom.com](http://www.aucom.com) for available Smart Cards and the opportunity to suggest a development for application or industry.
